We are done!

As a forewarning...the subcommittee pulled out most if not all of the earmarks. I think they left in the School Health related ones in. I don't know how your boss will react but I thought you might like to know. I also couldn't work money back in for MQCCC; he had asked about that.

We may have one significant issue from our perspective, but I'm not sure it matters what we think since Moolenar and Lori are aligned. They took 10% of the DSH Pool and dedicated it to smaller hospitals. Otherwise, we are done.

THANK YOU for all of your help and guidance along the way. Next step: Claims Tax.

Nick
